This project will provide a truly rural option for many remote workers and homebased businesses. It also provides a vital link to cell phone towers and redundancy into Louisburg.

Please provide supporting documentation to support your comments. Concerns related to overbuilds should include explicit data such as Census block and address specific data. Submit multiple files as a single ZIP file.

I just moved to parker ks, and would like to have peoples telecommunications high speed internet at my house. I have had them in the past and loved the service I received, and would like to see them expand and service a wider area.

Please provide supporting documentation to support your comments. Concerns related to overbuilds should include explicit data such as Census block and address specific data. Submit multiple files as a single ZIP file.

Our area's internet access has been lacking either in connection speed or reliability since we moved into the area in the late 90's. I support any effort to improve our connectivity options and since I work at home, connection speed is a major concern.

Please provide supporting documentation to support your comments. Concerns related to overbuilds should include explicit data such as Census block and address specific data. Submit multiple files as a single ZIP file.

I strongly support this grant request.

I am unable to work from home as a result of the internet access speeds I have available to me. Zoom calls are unprofessional due to extremely slow uploads speeds and realtime file collaboration is unreliable for the same reason.

Also of benefit would be the ability to conduct offsite data backups in a timely manner and to stream video at reasonable resolutions.

Thank you for your help in these matters.

Bret Clark
